To Whom It May Concern:

I am writing this letter on behalf of Alpha & Omega Computer and Networking Services. We have had the privilege of working with Darryl Santa and his team for over five years. I can not say enough about the integrity and professionalism that we have received. Alpha & Omega's proactive approach to network security has kept our digital environment running at optimum capacity.

In today's age of electronics, all organizations must make efforts to secure their digital environment from unwarranted invaders and Alpha & Omega has been our one-stop solution for our network security needs. We use Alpha & Omega's internet content filtering, spam filtering, and network monitoring services. Also, their network consultants have proven to be invaluable and the staff that I've dealt with at Alpha & Omega has also been extremely helpful. I would not hesitate in recommending Alpha & Omega as an excellent technical resource for your organization.

Feel free to contact me directly if you have any questions.

Thanks,

Steve Harrison
Administrative Pastor
