Mr. Darryl Santa, Owner
Alpha & Omega Computer and Network Services
19400 Beach Blvd., Suite 5
Huntington Beach, CA 92648

Dear Mr. Santa,

It is with the highest degree of confidence that I recommend the services of Alpha & Omega Computer and Network Services. CTS has been dealing with Alpha & Omega for over three years and our relationship has been great! Alpha & Omega has brought our I.T. environment from an outdated single server to an updated multi-server environment, which prepared the way for a paperless workflow process. With Alpha & Omega's consultation, design and implementation of our network, CTS has doubled its revenue without having to hire an additional employee!

Our experience with the staff at Alpha & Omega has been incredible. Their professionalism and integrity is second to none and I highly recommend their services to any organization considering an outside source to work on the pulse of their business, which is their network. If I can be of assistance in encouraging others to do business with a top-notch organization, please feel free to use CTS as a reference.

Sincerely,

Fred McKay
Controller
CTS Cement
