*To Whom It May Concern:*

*This letter has been written on behalf of Alpha & Omega because they have been a tremendous asset to our organization. We have been impressed by the quality of service and support we have received from our technical consultants and would highly recommend their services to any organization looking to address their I.T. concerns. Due to the confidentiality of our business information, it is extremely critical that we establish our business relationships on trust and integrity. Alpha & Omega has proven to be of the highest caliber in both areas and we are thankful for their reliable service here at Thermal-Vac. If I can be of assistance in helping an organization make a sound business decision in regards to their I.T. network, please feel free to contact me at 714-997-2601 x115.*

*Thank You,  
Steve Driscol  
President*
